

ALY LAMURI

MSc of Computational Neuroscience and Neuroinformatics. Currently assigned as an academic writer in Indonesia Medical Education and Research Institute (IMERI). Comfortable in scripting with **python3** and **R** as well as slight familiarity with **MATLAB**. Highly interested in researching psychology and medicine.

EDUCATION

- 2018
|
2019
- **School of Computing, Newcastle University**
MSc of Computational Neuroscience and Neuroinformatics  Newcastle, UK
Dissertation: Geometric Deep Learning Implementation in Classifying Depressed Subjects from Healthy Control
- 2016
- **Faculty of Medicine, Universitas Indonesia**
Professional Degree in Medicine (MD)  Jakarta, Indonesia
- 2011
|
2015
- **Faculty of Medicine, Universitas Indonesia**
Bachelor of Medical Science  Jakarta, Indonesia
Thesis: Thickness of Inter-alveolar Septum Correlated to the Age of Sprague-dawley Rat

RESEARCH EXPERIENCE

- Apr
2019
|
Sep
2019
- **Dissertation Project**
Analytical-descriptive study with cross-sectional design utilizing secondary data from the *UK Biobank*. This study aims to delineate brain functional connectivity differences between depressed subjects and healthy controls.
- 2012
|
2013
- **Undergraduate Thesis**
Analytical-descriptive study on *Sprague-dawley* rat lung specimens aiming to quantify the correlation between age and inter-alveolar septal thickness. This study conducted based on pneumocytes histological changes assumption thorough the rat lifespan.

EMPLOYMENT

- Aug
2019
|
Present
- **Academic Writer**
IMERI  Jakarta, Indonesia
 - Proofreading and copyediting manuscript submission
 - Aiding publication to selected scientific journal
 - Remotely coordinating with editorial team to select published article
